PRINCE ALBERT, MAY 21, 1895

Our readers will have no doubt
n. feared that whatever our faults or
failings may be, we are strenuous
advocates in supporting the theory
that the building of the Hudson's Bay
Railway is a necessity in developing
this great Northwest, in as much as
this route is the shortest to Europe in
comparison with any other from the
western continent. In order to
prove this we, in a late issue of this
paper gave a hurried and rough esti-
mate of the distance between Prince
Albert and Great Britain via the
Hudson's Bay comparing it with the
distance between the same points via
the C.P.R. and Montreal. In hurried
ly making these calculations we did
not take heed to work out the results
by the aid of tangents or cotangents,
sines or cosines or any other trigono-
metrical formulae; we merely made
a rough guess in order to show that
the proposed Hudson's Bay route was
much shorter than any other now in
use. It would appear that our zeal
has overrun our discretion and in
consequence our calculations, if all
reports are true, are simply out of
order. But we are thankful that
there is always some one on hand to
check us when we depart from the
right line of veracity. By a merci-
ful interposition of Providence a
certain gentleman had hidden away in
his drawer the very thing required to
knock our computations into smithere-
ns and put a stop to our extrava-
gant ideas. We cannot feel enough
thankful that this thing was found
just in the nick of time to counter-
act our errant wanderings, and more
grateful are we that amidst all his
multifarious religious duties, the re-
verend gentleman has shown so much
clarity in widely exposing our
errors. We will not take our oath
that his rendering is more correct than
ours; but still would be presumption
on our part to attempt to investigate
the matter, we will rest therefore in si-
lent thankfulness for mercies received.

By the account of the annual report
of the Confederation Life Association,
which we publish elsewhere, it shows
that this Insurance Company is in a
prosperous condition, and shows that
this company takes a leading place
amongst the like institutions in the
Dominion of Canada. It certainly
holds a high position throughout the
great Northwest and from its careful
management and undoubted stability
and the high security it holds out to
policy holders it should secure the
patronage of the public
at large. Those who will study
this report cannot fail to notice the
important difference in the income of
the company and the death rate, and
the mighty advantages connected
therewith. What will further make
it more interesting to us in this part
of the Dominion is that the Confed-
eration Life Association is the leading
insurance company doing business in
our western country and ought to
receive the patronage of all classes who
may wish to provide for future con-
tingencies.

The irrepressible O'Donovan Ross
is again making things lively in
England by his antics. He delivered
a speech at Birmmham in which he
went for Labouchere the Radical
Leader in fine style; in which he
characterized that gentleman as a liar
and a scoundrel, further adding that
Mr. Labouchere wanted satisfaction
for these words Ross would fight him
with any weapons whenever and
wherever Mr. Labouchere would
choose. This Ross was sentenced in
1863 as the publisher of a paper
called "The Irish People" to imprison-
ment for life. He had served from
five to six years of his sentence when
he was let out, on conditions that he
left the country for twenty years.
That period ran out in 1891, and
since then he has visited Ireland with
the views of fanning the old bitter
feeling against English rule. It is
well that he has selected Labouchere
on whom to vent his spleen as that
gentleman is about as much of a wind

bag as O'Donovan Ross himself. It
seems that Labouchere had written
a letter to Ross on the strength of
which he attempted to harangue the
House of Commons but was summa-
rily ejected therefrom. Since then he
has been after Labouchere with blood
in his eye. Ross is in a fair way of
tasting prison life again.

The Mechanic's Institute.

On last Thursday evening a meeting
of the Directors of the Prince Albert
Mechanic's Literary Institute was held
where it was resolved that steps
should be taken to increase the mem-
bership of that useful institution and
also to endeavor to awaken an interest
in this much neglected means of
useful information. We think it is a
pity after all the trouble and expenses
connected with the work that our
young men and young women could
not be induced to spend a little more
of their leisure time in improving
their minds more fully in general
knowledge through the easy means of
acquiring through this institution.
The following first-class periodicals
are constantly to be seen in the
Mechanic's and Literary Institute, viz.
Harper's Magazine, Scientific American,
Review of Reviews, Cosmopolitan,
The Forum, Scribner's Magazine,
Century Magazine and the Illustrated
London News. There are also the
following newspapers always on file,
viz., THE TIMES, Prince Albert Ad-
vertiser, The Daily Nor' Wester and the
Semi-Weekly Free Press, together
with the Weekly Tribune, all of Win-
ipeg, also the Daily Globe of Toronto,
and the Daily Witness of Montreal,
and various other papers all of which
are of very great importance. Add-
ed to this there is a good lending library
attached, in which are to be found
works from the pens of the most ce-
lebrated writers of fiction of the present
day. The reading room is open every
week day from 7 a.m. until 10 p.m.
The librarian will be on hand every
Wednesday and Saturday from 2 to 4
p.m. in order to lend or exchange the
library books to any of the members
who desire to embrace the opportunity.

New Candy just arrived at Geo. W.
Baker's. We still lead in low prices
of School Supplies and Stationery.

Lacroix Bros. have reduced price
all around in their blacksmithing, car-
riage and paint shops. The reduction
is a sweeping one to meet the hard
times and is strictly on a cash basis.
Satisfaction guaranteed in all branch-
es. Our work is second to none in the
business.

Heart Disease relieved in thirty min-
utes.—All cases of organic or sympathetic
heart disease relieved in 30 minutes and
quickly cured, by Dr. Agnew's Cure for
the Heart. One dose convinces. Sold by
J. G. White & Co.

RHEUMATISM CURED IN A DAY.—South
American Rheumatic Cure, for Rheuma-
tism and Neuralgia, radically cures in 1
to 3 days. Its action upon the system is
unmistakable and mysterious. It remove
at once the cause and the disease imme-
diately disappears. The first dose greatly
benefits. 75 cents. Sold by J. G. White
& Co.

Every business man ought to read "Do
us and Sense," a money making book by
Nath'l C. Fowler, Jr., the leading expert
in business and advertising. It is illus-
trated with 100 plates presenting
every style of effective advertising, with
examples of reading notices, circulars, an-
nouncements. It tells the plain truth about
advertisements and exposes ineffective
methods. Any reader of THE TIMES who
will send check, postal note or post-
age stamps to the value of twenty five cents
to the Trade Company, Boston, Mass.
will receive the book by prepaid mail.

LETTERS can prepare the D & A Correspond-
ence.
STAMPING PATTERNS FREE.—All our
readers should send to the Publishers of
"The Home," 141 Milk Street, Boston
Mass., and get a set of their beautiful
stamping patterns. They can be used for
embroidery outlining or painting. All
desirable and good size; some 8x10, others
10x12 inches. There are ninety (91) on
different patterns and two alphabets, one
large for use in pattern. With this
until the publishers send "The Home," a
16 page paper containing Stories, Fashion-
able Work, etc., for 3 months, and only
ask for 10 cents to cover cost of postage on
patterns and paper. Our illustrated
Pattern List sent free to all address.

The "Rural Canadian" continues to
be the most practical paper for the all
round farmer to read. It has made a
decided "hit" in securing the sole
right for Canada of "The Farmer's
New Guide," a well bound and hand-
some illustrated volume of 778 pp.,
published at \$2.50 and not sold at a
lower price except in connection with
the "Rural." Every farmer should
have the Guide and "Rural." Both
sent to any address on receipt of \$2.50.

Waghorn's Guide for May contains
additional features of interest besides
the regular time cards of railway,
ocean, and lake travel. Its success
has inspired imitators who seek to
reproduce in a cheap form the chief
contents of the Guide, so the publish-
ers announce that they will offer the
Guide with the original reliable tables
at 5 cents per copy or 50 cents per
year, while such plagiarism lasts. No
doubt the publishers will materially
extend their already extensive circula-
tion as a result of the public appre-
ciation of the low price and the merits
of the work.

Both Had Eczema
In Its Worst Form

After Physicians Failed, Hood's
Sarsaparilla Perfectly Cured.
Great mental agony is endured by
parents who see their children suffering
from diseases caused by impure blood, and
for which there seems no cure. This is
turned to joy when Hood's Sarsaparilla is
resorted to, for it expels the foul humors
from the blood, and restores the dis-
eased skin to fresh, healthy brightness.
Read the following from grateful parents:
"To C. L. Hood & Co., Lowell, Mass.:
"We think Hood's Sarsaparilla is the most
valuable medicine on the market for blood
and skin diseases. Our two children suffered ter-
ribly with the
Worst Form of Eczema
for two years. We had three physicians in
that time, but neither of them succeeded in
curing them or even in relieving them a little.
At last we tried Hood's Sarsaparilla
and in a few weeks our children were per-
fectly cured. We recommend
Hood's Sarsaparilla
as a standard family medicine, and would not
be without it." Mr. and Mrs. M. M. SOLLER,
1415 2nd Avenue, Alhousa, Pa.

HOW IS THIS?

Something new even in these days of mam-
moth premium offers, it is the latest work of
Stafford's Magazine, a New York monthly of
home and general reading.

The proposition is to send the Magazine
one year for one dollar, the regular subscrip-
tion price, and in addition to send each sub-
scriber fifty-two complete novels during the
twelve months; one each week.

Think of it. You receive a new and com-
plete novel, by mail, post paid, every week
for fifty-two weeks, and in addition you get
the magazine once a month for twelve
months, all for one dollar. It is an offer
which the publishers can only afford to make
in the confident expectation of getting a hun-
dred thousand new subscribers. Among the
authors of the coming series are: Will
Collins, Walter Besant, Mrs. Oliphant, Mary
Cecil May, Florence Marryat, Anthony
Trollope, A. Conan Doyle, Miss Bradton,
Captain Marryat, Miss Thackeray and Jules
Verne. If you wish to take advantage of
this unusual opportunity send one dollar for
Stafford's Magazine one year. Your first
copy of the magazine and your first number
of the fifty-two novels to come each week
you are to receive during the year will be
sent you by return mail. Remit by P.O.
order, registered letter or express.

A. W. R. Markley, Territorial agent Confederation Life Insurance Co., who had been here for a couple of weeks on a business trip in connection with his company, left for Calgary yesterday morning. He reports business as fairly good, and expects to return about August next.

Racquets, Clubs, Fire-crackers, Torpedoes, Skyrockets, and an endless variety of new things just arrived at G. W. Baker's.

A handsome advertising screen or curtain has lately been placed in the town hall which is really beautiful as an ornament as well as an excellent medium of advertising. The workmanship, which was executed by our talented workman, Mr. Henry Lacroix, is of a very high order and reflects great credit to the genius of the learned artist. Most of our business houses have patronized the work by having their cards imprinted thereon, which will not fail to draw the attention of every visitor to the town hall. The whole is alike creditable to the town and to the neat work of Mr. Lacroix.

Confederation Life Association

The annual meeting of the above association was held at the hotel office of the company, Young, Richmond and Victoria streets, Toronto, on the afternoon of Tuesday, the 9th inst. There was a large attendance of shareholders, policy holders and members of the agency staff.

Hon. Sir W. P. Howland, C.B., K.C.M.G., President, was called to the chair, and Mr. J. K. Macdonald, Managing Director, acted as secretary.

The following report and financial statements were submitted:

REPORT.

Your directors beg to submit to the policy holders and shareholders the twenty-third annual report of the association, covering the operations for the year 1894. In doing so it is scarcely necessary to state that the year was one of unusual stringency and general depression in all branches of trade. This could scarcely fail to have a marked influence upon the business of life insurance, and in view of the fact, it will be a source of gratification to all persons interested in the association to observe the substantial progress made and the large volume of new business secured. It has not been without its difficulties, but the policy which has guided your directors in the past, and therefore new business was sought for only at reasonable cost.

Your directors have had before them 2,221 applications for total and partial policies, of which 2,218 have been approved; 93 for 152,000 were declined and 5 for various reasons were deferred. Adding the revised policies, which have been written off in previous years, and bonus additions, the new business for the year was 2,248 policies for \$3,528,304 of insurance.

The total insurance in force at the close of the year was \$25,445,342.00 under 16,625 policies on 14,967 lives.

The death claims for the year were light, being 93 deaths under 105 policies, calling for a total insurance of \$164,287.50. Under a reinsurance this amount was reduced by the sum of \$1,994.50, making the net claim \$162,293.00. This is a striking evidence of the care exercised in the selection and acceptance of new business, and is a high compliment to our field staff.

The financial statements submitted have fully exhibited the position of the association on the 31st December last.

The auditors have continued to give close attention to their duties, and have been thorough and prompt in their work. Their report will be found appended hereto. Your directors are pleased to be able to state that the head office building is doing up very well, considering the effect of the prevailing depression upon all property of the kind. A considerable portion has been rented during the past year.

All the directors retire but are eligible for reelection.

W. P. HOWLAND,

President.

AUDITORS' REPORT.

We beg to report that we have completed the audit of the books of the association for the year ending Dec. 31st, 1894, and having examined the vouchers connected therewith, and certify that the financial statements agree with the books and are correct.

The securities represented in the assets (with the exception of those lodged with the Dominion Government, amounting to \$84,000, and those deposited with the Government of New York, amounting to \$25,000), have been examined and compared with the books of the association and are correct and correspond with the schedules and ledgers.

The bank balances and cash are certified as correct.

W. R. HARRIS,
(Signed) W. R. HARRIS, F.C.A.,
Auditors.

Toronto, March 7th, 1895.

The president, Sir William P. Howland, in the adoption of the report and financial statements submitted to the meeting, and in doing so, alluded to the commercial stringency which had prevailed during the past year, and whilst these unfavorable conditions had some effect in limiting the amount of business done by life insurance companies, yet it is gratifying to note that the volume of business on their books had not only been generally maintained, but had shown a satisfactory increase. This is a significant fact, considering the fact that the total insurance in force at the end of the year was \$25,445,342.00.

The company had maintained a careful and conservative policy, being determined to keep the expenses of doing business within a reasonable limit and to use every precaution in the selection of risks which were taken. An evidence of the latter is to be found in the fact that we have had only 93 deaths during the year, the total claims thereunder being \$162,293.00.

The business of the company continued to receive during the year the careful attention of the managing director and of the head office, and the favorable results obtained must be attributed to this fact and also to the very efficient organization which the company have brought to the Dominion.

It has always been the view of the managing director and the board of directors that the company should be the agent of the people of the country.

should be placed before you in as clear and simple form as possible, but being the case, and the statements having been in your hands for some time it will not require any special explanation from me, but if any information is required I am sure the managing director will be happy to furnish it, as requested.

Mr. W. H. Barry, in responding to the report said:

I think we have fair reason to congratulate ourselves upon the amount of business which has been secured during the past year, which has been secured in the Dominion of Canada, with the exception of Newfoundland, and were we re-established in the Dominion of Canada, which we suppose will very shortly be a part of the Dominion of Canada. The business shows an increase all along the line. The president referred to the depression which has existed in commercial affairs, but when we consider the very large amount of money that is paid for life insurance in the Dominion, aggregating many millions of dollars, we cannot but conclude that it is an evidence of the very substantial financial condition of the country.

Allusion was made to the manner in which the head office building of the Co. was being rented, which could not fail to depart from the policy which has guided your directors in the past, and therefore new business was sought for only at reasonable cost.

After the meeting adjourned a meeting of the new board was held at the Hotel, Sir W. P. Howland, C.B., K.C.M.G., was re-elected president, Messrs. E. Hooper and W. H. Barry, vice presidents, and J. K. Macdonald, managing director.

The Wild Flowers of Canada.

This Dominion will soon be covered with wild flowers as with a carpet. It is interesting to hear that splendid prizes are to be given to those who know the Wild Flowers of Canada by name, form and color. European and American judges of floral matters say Canadians should be so carried away with the beauty of their own native bloom as to ensure an acquaintance with the Wild Flowers of Canada by every man, woman, boy and girl in the Dominion.

In this connection the Montreal "Star" is coming in for much praise for a splendid work it is publishing, entitled "The Wild Flowers of Canada," in portfolio form, sixteen flowers in each portfolio, three hundred plates in all, natural colors and natural size, the whole forming an invaluable treasure for the library.

For a limited time these valuable portfolios may be obtained from the Montreal "Star" or local newspapers at fifteen cents each. Amazing cheap.

The Manitoba Free Press in speaking of the Uxbridge Piano says: They are genuine works of art, and reflect the highest credit upon the firm which has produced them. The old style of upright piano is thrown into the shade. The Uxbridge Piano has a continuous look which will be appreciated in the playing of duets, sitting down to the piano the performer touches a lever and the keyboard is uncovered, and the hinges of the lid turn out of it, and the instrument presents the same artistic appearance when open as when shut. The Organs manufactured by the Uxbridge company have been in use for over twenty years, and require no special description as they are so well-known and liked in the homes of the thousands over the whole world.

However, the company is manufacturing a six Oct. Organ in Piano case which is having a wonderful sale. The Piano made by the Uxbridge Piano Co. is a credit to Canadian enterprise, being equal in tone, durability and finish to the best American.

The May number of "The Canadian Magazine," the first of the 5th volume, is replete with most interesting matter. The illustrations are good and altogether the number compares well in interest and variety with any of the magazines of the month. The illustrated articles are "Glimpses of Norway," by Frank Yeitch; "The Home of the Quanniches," by E. T. D. Chambers; "The Underground Railway and one of its operators," by Thos. E. Champlain; and "The Ontario Ladies' College," by Rev. J. P. German. Edward Mack contributes a clear, valuable and timely article on "The Manitoba School Question and the Remedial Order." Henry Fry, ex-president of the Dominion Board, tells of the past history of ship-building in Quebec city, and urges the advantages of that city for steel ship-building. Other articles are "The Penalties of Genius," by B. St. George Lefroy; J. W. L. Forster's "Early Artists of Ontario," Robert Louis Stevenson by Hector Charlesworth, and "Canadian Newspapers: Interviews," by P. Spaanjaard. J. Cawdor Bell, the charming author of "Two Knapsacks," contributes to fiction "The Trumpeter and the Child; Mrs. Ella Atkinson gives a very natural story, "Old John's Easter Lilies," and William Linton, "Dora, the Pretty Typewriter." "The Canadian Magazine" is published by the Ontario Publishing Co., Ltd., Toronto, for \$2.50 per annum, or 25 cents per single copy.

Of Interest to Breeders.

In a few weeks horses and cattle will be put on grass, and the greatest care is necessary to prevent the sudden change of diet having very serious effects. Dicks' Blood Purifier tones up the whole system, and the animal goes on thriving instead of being set back by a change.

The greatest papers in Great Britain and the United States freely acknowledge the wonderful merit of the *Family Herald* and *Weekly Star*, Montreal. The *Family Herald* is a great newspaper and a great family paper, but it is more than that, it is one of the greatest authorities in the world on cheese, butter, general dairying, and general farming. How a progressive, up-to-date farmer can do without the *Family Herald* and *Weekly Star* of Montreal is hard, indeed, to understand.

For Over Twenty Years.

Mrs. WISCONSIN'S SOUTHERN SYRUP has been used by millions of mothers for their children's health. It is distributed at night and in the morning, and is a most effective remedy for all ailments of the digestive system. It is a most effective remedy for all ailments of the digestive system. It is a most effective remedy for all ailments of the digestive system.

Belleville, January 4th, 1894.

Messrs. Dicks & Co., Montreal.

"Dicks' Blood Purifier" is the best of all the condition powders I ever used. It makes a horse thrive and feel well, improves his coat and keeps him perfectly clean in the legs, no matter how long he stands in the stable! I give half of the first lot to a gentleman who had a fine trotting stallion that had swollen in the legs, and had scarcely been out of condition, and in a few days his legs were perfectly clean, and the cracks healed rapidly.
